PROJECT:

PROJECT 1:

NAME: ONLINE FOOD ORDERING SYSTEM

NO.OF MEMBERS: 03

DURATION: 3 MONTH

ABSTRACT: Online Food Ordering System provides convenience for the customer in food ordering. Here we set up a menu online which helps the customer to easily place order with a simple mouse click. This system allows the user to select the desired food items from the displayed menu. The payment can be made online or cash-on delivery system. The user's detail are maintained confidential because it maintains a separate account for each user .An unique user id and password is provided for each user after registration. Therefore it provides secured ordering along with secured payment method i.e encrypted using some encryption technique.
